

# BRENTWOOD STORMTANK® MODULE 20

You can restrict the discharge rate of your stormwater runoff and reduce backfill with StormTank® Module systems. StormTank® Module systems achieve these restrictions by providing large-volume storage and incorporating an impermeable liner to prevent infiltration.

Layfield's line of subsurface stormwater storage units can be flexibly designed to meet your specific site requirements and achieve compliance with strict runoff regulations. Without sacrificing storage capacity, StormTank® Modules allow a project to use fewer total units. Their quick assembly reduces installation costs and makes StormTank® an ideal solution for stormwater management.

The new StormTank® Module 20 Series is a subsurface stormwater storage unit rated for use under standard load applications, such as parking lots and athletic fields.

April 2023		Brentwood StormTank® Module 20		
Style	Size (L x W x H in inches)	VOID SPACE (%)	MODULE STORAGE	WEIGHT
2018	42in x 21in x 18in	94.57%	8.77 ft <sup>3</sup> 0.2488 m <sup>3</sup>	26.81 lbs 12.16 kg
2024	42in x 21in x 24in	95.38%	11.79 ft <sup>3</sup> 0.3346 m <sup>3</sup>	29.39 lbs 13.33 kg
2036	42in x 21in x 36in	96.19%	17.83ft <sup>3</sup> 0.5062 m <sup>3</sup>	34.55 lbs 15.67 kg
