

SAVE TIME AND ENERGY WITH EFFICIENT SNOW REMOVAL

Remove freshly fallen snow from your worksite with snow removal tarps. Simply lay the tarps out in a grid the day or evening before the forecasted snow arrives. Once the snow subsides, lift the tarps and the snow with a crane and get on with your work. Snow Removal Tarps allow contractors to clear job sites quicker, allowing production to move forward.

ADDITIONAL FEATURES

- ▶ Quick and efficient snow-clearing method
- ▶ Easy to deploy and store
- ▶ Heavy-duty webbing reinforcements provide durability.
- ▶ Tarps are reusable
- ▶ Saves labor from shoveling
